ACCOUNTABILITY OF FUNDS	<b>1.2 Increase the number of consumers achieving and maintaining independence</b> <p>The use of funds would be evaluated through meeting the projected outcome values on the agency strategic plan at the end of the year.</p>
What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?	
RECIPIENTS OF	Older Blind Services will receive the increase to aid in accomplishing the goals laid out in the strategic plan.

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

Vision and eye problems increase as people age, including diabetic retinopathy, cataracts, glaucoma, and macular degeneration. As South Carolina's population ages and more older people retire to the state, the number of individuals 55 and older seeking services to remain independent in their homes and communities continues to increase each year. In FY23 more than seven hundred (700) individuals received Older Blind Services. In FY24 we expect to serve more than 1,000 consumers, and in FY25 we expect to serve nearly 1,400 consumers. \*\*

Vision loss in adults 55 and older reduces their quality of life, affecting their ability to read, watch television, walk or climb stairs, run errands, attend to personal affairs, and remain independent in their home and community. It may lead to social isolation, family stress, and a greater tendency to experience other health conditions such as diabetes, arthritis, or mobility issues. In addition to health and chronic conditions, nearly 40% of individuals 65 and older who are blind or have a visual impairment have an annual income less than \$20,000. \*\*\* Finally, vision loss also affects those who care for people with a visual impairment because it reduces their ability to care for themselves, other family members, and manage personal matters.

## **JUSTIFICATION OF REQUEST**

This request would be used to add two Older Blind Counselor (2) FTE positions (\$123,589) to help with our growing caseloads and the increase in consumers we expect to serve over the next couple of years. Additional funds (\$491,365) would allow the agency to assist more individuals with Older Blind Services, helping them to receive low-vision evaluations, training on how to manage personal care and daily tasks, adjustment to blindness, orientation and mobility training, and instruction in the use of adaptive computer software. Those funds would also make it possible to provide more assistive devices and low vision aids such as hand-held magnifiers, digital magnifiers, electronic reading aids, closed circuit television systems, and protective sun filters to consumers depending on their specific needs.

Helping our seniors remain independent in their homes and communities not only improves their quality of life, it can also reduce their reliance on government benefits and costly out-of-pocket expenses for home health care or skilled nursing care.

\*\* According to the Big Data Project, nearly 8% of South Carolinians age 65 and older have a visual impairment or blindness.

\*\*\* According to the Big Data Project conducted by VisionServe Alliance and Ohio State University College of Optometry.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

ACCOUNTABILITY OF FUNDS	<p>1.1 Increase successful competitive integrated employment outcomes</p> <p>The use of funds would be evaluated through meeting the projected outcome values on the agency strategic plan at the end of the year.</p>																				
What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?																					
RECIPIENTS OF	Vocational Rehabilitation Services will receive the increase in funds to aid in accomplishing the goals laid out in the agency's strategic plan.																				

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

**JUSTIFICATION OF REQUEST**

To receive the full federal grant award for the Vocational Rehabilitation (VR) program, the state has to match the federal dollars at a rate of 21.3%. An increase of general funds in the amount of \$552,732 will allow the agency to continue to meet its federal obligation and would be utilized to fund portions of several administrative positions that directly support the provision of VR services. Ultimately, an increase of state matching funds will allow the agency to provide a greater number of VR services and opportunities to more SC citizens throughout the state.

VR services help eligible consumers who are blind or visually impaired to prepare for, find, maintain, or regain competitive integrated employment. This also includes providing pre-employment transition services and other supports for youth with disabilities age 13-21.

VR services are individualized and based on a consumer's specific needs and vocational goal. Consumers may participate in adjustment to blindness training (orientation and mobility, home management, etc.), career exploration, and job readiness programs. Depending on an individual's specific needs, they may receive support for educational goals (such as tuition assistance), assistive technology devices (braille displays, CCTVs, etc.), or training to use screen readers such as JAWS (Job Access With Speech). All services are provided with the ultimate goal of helping consumers achieve high quality, competitive, integrated employment in a career field of their choice. Some of the successful employment outcomes in FY23 included Financial Analyst, Counselor, Nuclear Technician, Business Operations Specialist, Registered Nurse and Postal Service Clerk.

If the increase in funds is not received, the agency will not be able to match or utilize the full amount of its federal award, thus reducing the funds available for the agency to serve consumers. In addition, since the match requirement is a state level requirement, the funding for the SC Vocational Rehabilitation Department would also be negatively affected.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

## FUNDS

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

### JUSTIFICATION OF REQUEST

Increasing funds for Administrative Support by \$311,536 will allow the agency to fund portions of administrative positions that provide support to all Consumers Services and that were previously funded through sources that have been exhausted. This will allow agency administrative support staff to continue providing a consistent, high level of service to partners and vendors, and to provide indirect support for consumer services staff.

Administrative Support for Consumer Services encompasses many aspects of the agency, such as:

- Financial management of federal consumer service grants and matching funds (Vocational Rehabilitation, Supported Employment, Independent Living for Older Individuals Who Are Blind), plus state appropriations (Children's Services and Prevention Services)
- Procurement of consumer services contracts and small purchase solicitations
- Recruitment and retention of qualified staff to ensure quality and timely consumer service delivery
- Monitoring agency compliance with state and federal regulations through a continuous quality assurance process
- Management of agency communication, information and data storage systems to ensure data integrity and security in compliance with state and federal laws and regulations

If these funds are not received, staff may not have the support needed to provide direct consumer services through the agency's local offices or statewide facilities.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

## FUNDS

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

This request of \$977,604 is to add additional authority for funds that will be received from federal grant awards. These grant awards increase annually, and the authorization increase will allow the agency to fully utilize these funds to increase its effectiveness and efficiency in providing consumer services.

*What is the General Fund 3% reduction amount? This amount should correspond to the reduction spreadsheet prepared by EBO.*

<b>ASSOCIATED FTE REDUCTIONS</b>	None
--------------------------------------	------

*How many FTEs would be reduced in association with this General Fund reduction?*

<b>PROGRAM / ACTIVITY IMPACT</b>	A 3% reduction would impact Vocational Rehabilitation Services, decreasing case service funds available to spend for consumers.  A reduction would also affect the agency's ability to spend the required non-federal matching funds for our federal grant awards.
--------------------------------------	--

*What programs or activities are supported by the General Funds identified?*

<b>SUMMARY</b>	A 3% reduction to the case services budget would greatly impact service delivery to SCCB consumers.  Consumers who receive Vocational Rehabilitation Services need training, and often medical services, to find, obtain, or retain employment. A reduction in funds for the program could affect the agency's ability to comply with the federal regulations that set forth the services the agency is to provide to consumers.
